February 4, 1967

Dear Mr. Weisberg,

I have developed a tremendous interest in the facts surrounding the Kennedy Assination, the Warren Investigation, and Mr Garrison's investigation in New Orleans. I was first shocked out of agreeing completely with the Warren Report by the interview in Playboy with Mark Lane. (Feb 67)

Since that time I've read Mr Lane's Rush to Judgement, Epstien's Inquest, Sylvan Fox's The Unanswered Questions About President Kennedy's Assination, various newspaper and magazine articles, and your Whitewash and Whitewash II. I found your books to be most interesting, highly informative, thought provoking, and very unnerving, as well as the most accurate when I compared and cheched back with my

paperback edition of the report.

Presently I am serving aboard a fleet tug in the U.S. Navy. Two copies of Whitewash and my copy of Whitewash II are circulating around the ship. We also have some related books, both pro and con, being passed around, too. These have led to some very interesting discussions, to say the least. All of which brings me to the real purpose of this letter.

We would like to know how to express our dissatisfaction with the Warren Report. To our way of thinking this is too important of a subject to be left as is, and we would like to make our feelings know. But to who? We would appreciate your help in this.

Your books are well read and talked about aboard ship. We offer our "Well Done" to the ~~dead~~ result of what must have been a much time consuming task. Thank you.

Respectfully Yours

Roy L Streit FA
